P. M.

Absences, Excuses, Etc.

1. Each student is expected to keep an accurate diary record of all absences, including day and evening study-hour absences.
2. All out-of-town excuses are granted by the Principal. A student absent from town without permission forfeits his connection with the school.
3. All absences from recitation, daily chapel, and Sunday chapel services are to be accounted for, and excuses secured in advance, whenever the necessity can be foreseen. If an excuse is sought after the absence, the request should be made in writing and the white petition blank used.
4. Recitations missed, whether excused or not, are to be made up, to the satisfaction of the instructors. A failure to meet the requirements of the instructor in making up such exercises may prevent the excusing of the absence.
5. Students are to consult their class officers in reference to all changes in their studies, and also secure from them all study-hour excuses for day and evening. The excuses should be obtained and all school business with the teachers transacted, if possible, during the day at the Academy.
6. Demerit marks may be incurred for unexcused church or chapel absences; unexcused recitation absences (no absence is excused until the omitted lesson is made up to the satisfaction of the instructor); failures to observe the school study-hour and house regulations; failures to prepare assigned lessons, the student running his chance of being called upon to recite; inattention or disorder in the class-room which necessitates withdrawal from the room; special marks assigned by faculty vote.
7. Smoking is forbidden in public places, i. e. upon the school campus, upon the street (both in Andover and out of town), in stores and public buildings, and upon railroad trains.
8. Warnings are sent, whenever possible, to parents and guardians of students who have on record five marks, and a record of ten such marks occasions suspension from school. At the end of a term two marks are cancelled from the record of each student.
9. The school week begins and ends on Friday, at 12.00 o'clock. All petitions are to be deposited (before that hour) in the door of registrar's office.

House Regulations

1. The School study hours extend from morning chapel to 12 o'clock; from 2 to 4 o'clock, except on Wednesdays and Saturdays; and from 8 o'clock on, every evening.
2. During study hours, when not meeting class-room appointments, students are expected to occupy their own rooms, engaged in preparation of school exercises, or attendant school work. One is at liberty to pass from room to room within his house, while thus engaged, in so far as such visits contribute to legitimate school work and are conducted in an orderly manner.
3. At 10 o'clock each student is expected to be in his own room and to maintain such quiet as befits the usual retiring hour of the community.
4. The use of musical instruments is to be confined to hours not set apart as the school study hours.
5. Excuses for the evening are to be sought from the school officers only, and during recitation hours, at the Academy.
6. The use of tobacco is discouraged by the school authorities, and students are required to observe the regulations of the several houses as regards the smoking habit.
7. Students are not expected to visit from house to house on the Sabbath.
8. The boarding houses are under license from the trustees of the Academy, and the proprietors are expected to assist the students rooming with them to observe the house regulations. A weekly report is sent to the faculty, noting absences from room during evening study hours, and touching the points mentioned in these regulations. These reports are made up from the personal memoranda of the ladies in charge of the houses, independent of the student's own record.
